

# BRIAN HUTCHINGS

## Experience

Over the last couple of years, I have been very blessed to be a part of four films that have been nominated for Academy Awards, including 2013's "Twenty Feet From Stardom", which won the Oscar, and then in 2014, "The Last Days Of Vietnam", which was nominated for the Oscar. I also taught color correction at the University of Southern California, the first two years of its introduction to the Television and Film Arts.
